# International Women's Day KRAB 107.7fm March 8

International Women's Day was given birth in 1909 by women garment workers in New York. It's commemorated in different countries world-wide on March 8th, although it isn't officially recognized in the United States.

KRAB will celebrate International Women's Day again this year with 36 consecutive hours of programming, produced by and about women. Starting at 6:00 pm on Saturday, March 7th--with an opening celebration--we will be on the air without a break until the early hours of Monday, March 9th. All of the operations at KRAB, from programming to board engineering, will be in the hands of women, regular KRAB volunteers as well as women from the community.

Featured programming will include music spanning the early classical composers through jazz, live radio drama, poetry and literature of women from diverse cultures, and topical shows on issues such as women in the military, aspects of women's health care (with a focus on what's likely to happen with impending federal budget cuts), midwifery and anti-semitism. A number of these topical shows will be live, and we encourage you to call in and participate in our celebration of International Women's Day. Also featured will be LIVE music--everything from a women's barber-shop quartet to some fine fiddling, beginning at 2:00 pm on Sunday, March 8th.

There is literally something for everybody during this annual, 36 hour event. Check inside the program guide for details about specific programming and times, and join the celebration!
